NATIONAL
TOURISM
ORGANISATION
of SERBIA

www.serbia.travel

The annual publication 'Events in Serbia', published by the National Tourism Organisation of Serbia (NTOS), aims to inform the public about numerous festivities, performances, fairs, cultural, sports and other events which greatly enriches Serbia's tourism offer. Both domestic and international tourists are especially interested in festivities that preserve tradition, custom, folklore and handicrafts. Most of the festivities are held during the summer, around dates that are historic benchmarks in the annual rural calendar such as sowing, harvesting, fruit picking and other summertime events.

All the festivals share one common attribute, and that is that they are very well attended and hugely popular. At Festival time all host venues enjoy a major surge in visitor numbers and many, especially

those with a long standing historic significance, have a loyal following that return year after year to actively participate. These festivals are of particular importance to both our domestic and international tour operator partners as they represent considerable scope and opportunity due to their mass appeal. The festivities and events featured in this calendar demonstrate first-hand the creativity and spiritual heritage of the Serbian people, and offer a new dimension to the tourism offer which is important to both the regions in which they are held and the country at large. The diversity and richness of Serbia's folklore is expressed through these numerous festivities, which is an example of how these festivals both encourage and aid the development and appreciation of Serbia's art and culture.

THE 2018 CALENDAR FEATURES MORE THAN 200 EVENTS IN SERBIA, NAMELY:

EVENT

EUROPEAN HERITAGE DAYS

The European Heritage Days, established in 1991 following the European Council initiative and with the support of the European Community, have a great role in shaping awareness about European identity, not only in the cultural sense, but also in the social, political and economic as well. Discovering a common heritage, enriched by differences, makes Europe a place where recognition, understanding and acceptance of mutual differences are possible.
